Redefining Excellence in Excipients

PureSynth®
Research Chemicals GmbH

Introduction

Global-Grade, IPEC GMP Compliant, Ready for every market.

Excipients are more than just ingredients; they are the silent backbone of safe, effective, and stable medicines. At PureSynth, we understand that every excipient carries a responsibility — to patients, to regulators, and to your brand.
With this in mind, we manufacture and supply pharmaceutical excipients that are globally accepted, aligned with **IPEC GMP** guidelines, and supported with complete technical and regulatory documentation.
Our philosophy is simple: uncompromising quality, reliable supply, and customer centric service that goes beyond expectations.

With years of expertise and commitment to excellence, our flagship brand ExciPur has become a trusted partner for pharmaceutical, nutraceutical, and biotechnology companies worldwide. Developed under stringent compliance frameworks such as ICH Q7A and ISO 9001, our products consistently meet the most rigorous international standards. This makes ExciPur not just a product line, but a symbol of consistency, safety, and innovation — strengthening the foundation of modern medicine across the globe.

IPEC-GMP Compliant

ISO 9001 Certified

Quality Matters – QMS Built on Global Standards

At PureSynth, quality is not an afterthought – it is the foundation of every excipient we deliver. Our QMS is meticulously designed in line with **ICH Q7A guidelines** and certified to **ISO 9001 standards,** ensuring every stage meets internationally recognized benchmarks.

Supplier & Material Integrity

Robust Manufacturing & In-Process Controls

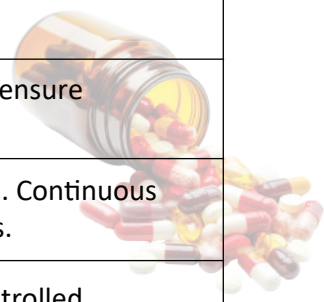
State-of-the-art analytical testing

Assurance, Release & Continuous Improvement

Multi-tier quality review

QMS Framework

QMS Element	Implementation at PureSynth
Quality Management	Quality-critical parameters are carefully monitored, with deviations thoroughly investigated and resolved. Final product release is conducted only after QA review, ensuring compliance with established standards.
Documentation & Records	SOPs and records are maintained in validated document control systems; QA stores executed records in controlled environments.
Contract Manufacturers/ Supplier Qualification	Rigorous vendor evaluation, audits, and continuous monitoring; bound by formal agreements and subject to full change notification.
Deviation & CAPA Management	Structured process for identifying, investigating, and correcting deviations.
Buildings & Facilities	All critical equipment calibrated and maintained to ensure compliance.
Personnel	Qualified staff undergo structured training curricula. Continuous competency development and awareness programs.
Change Control	Formal quality agreements in place; all changes controlled and notified per Q7A/IPEC requirements.
Continuous Improvement	Regular training, audits, and feedback systems driving ongoing quality enhancements.
Regulatory Compliance	Alignment with ICH Q7A, ISO 9001, and IPEC GMP guidelines.



Technical Documentation & Certifications

Transparency and trust are integral to our operations. Every consignment is backed with a robust set of documents and certificates, empowering our clients with complete traceability and assurance.

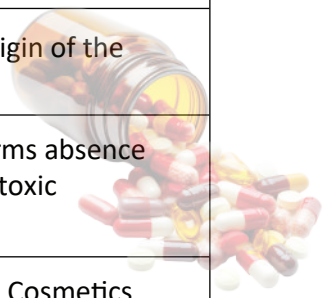
The specific certificates provided depend on the

A) Grade of excipient (pharmaceutical, food, cosmetic, or nutraceutical)
B) Requirements of our customers and regulators.

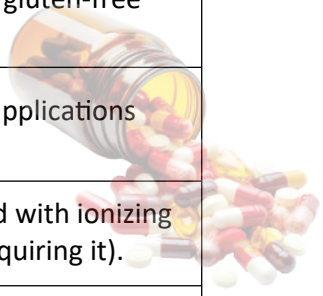
Below is an overview of the certificates we provide and their typical applicability:

Exci*Pur* Certificates & Applicability

Certificate / Statement	When Provided / Applicable Use
Mycotoxins / Aflatoxins Certificates	Pharma & food excipients – ensures safety from toxic metabolites
BSE-TSE Certificate	Pharma & food excipients – assures absence of animal-derived spongiform encephalopathy risks
Certificate of Origin	For all grades – confirms country of origin of the material.
CMR Certificate	Pharma & cosmetic excipients – confirms absence of carcinogenic, mutagenic, and reprotoxic substances.
Cosmetic Allergens Certificate	Cosmetic-grade excipients – meets EU Cosmetics Regulation requirements.
Doping Certificate	Nutraceuticals & sports-related formulations – ensures absence of prohibited doping substances.
Ethylene Oxide Statement	Pharma/food excipients – provided where sterilization/processing requires confirmation.
Food Allergens Certificate	Food-grade excipients – confirms absence of common allergens.



Certificate / Statement	When Provided / Applicable Use
Forbidden Substances Certificates (GSO / Cosmetics)	For Middle East (GSO) & EU cosmetic regulations – ensures compliance with prohibited substance lists.
Gluten-Free Certificate	Food & nutraceutical excipients where gluten-free labelling is required.
GMO (Genetically Modified Organism) Certificate	For food, nutraceutical, and cosmetic applications requiring GMO-free status.
Ionizing Radiation Certificate	Confirms material has not been treated with ionizing radiation (for pharma/food markets requiring it).
Latex Certificate	Pharma excipients – ensures product is free from natural rubber latex.
Melamine / Mesilates Certificates	Provided when specifically requested by customers/ regulators.
Nanoparticles Certificate	Cosmetics & food – confirms presence/absence of engineered nanoparticles.
Nitrosamines Declaration	Pharma excipients – aligns with EMA/FDA nitrosamine impurity controls.
Non-Animal Origin Statement / Not Tested in Animals	For vegan, vegetarian, and cruelty-free requirements in pharma, food & cosmetics.
Non-Dioxins Certificate	Required for certain pharma/nutraceutical excipients to ensure purity.
Nutritional Information	Food & nutraceutical excipients – calories, protein, fat, carbohydrate content, etc.
Palm Oil Free Certificate	Food & cosmetic industries where palm oil is restricted.
Pesticides Certificate	Food & nutraceutical excipients to confirm absence of pesticide residues.
Phthalates Certificate	Pharma & cosmetic excipients where phthalates are restricted.
Residual Solvent Certificate	Pharma excipients – confirms compliance with compendial /ICH Q3C solvent limits.
SVHC Certificate	EU REACH compliance – declaration of Substances of Very High Concern.



Redefining Excellence in Excipients

PureSynth®
Research Chemicals GmbH

What Sets Us Apart:

- Global Compliance
- Unmatched Traceability
- Regulatory Reliability
- Special Packaging Solutions
- Customized Solutions
- Client-Centric Approach

Product Portfolio:

Our extensive range of excipients is designed to serve a wide spectrum of applications across pharmaceuticals, nutraceuticals, and specialty formulations.

Product No.	Description	API	GMP	Cas No.	Packing
PSR47531	1,2-PROPANEDIOL QP		✓	57-55-6	1L,2.5L,5L,10L,25L,50L
